

Opportunity

Position: Front Office Business Risk Manager

Location: Zurich

Reference: DA429

Supporting the senior management for our global Private Banking client's office in Zurich, this exciting job opportunity would offer a Senior Risk professional exposure to senior levels of the bank and working closely together to strategically plan and execute processes and controls in the operation.

Role

This demanding role requires the candidate to take ownership of the Private Banking operational risk framework and being very close to the business. The person is responsible for identify areas of improvement and changes. S/He needs to be able to provide the business with solid, well thought out recommendations minimising operational risk and assist the business with the implementation of these proposals. Suitable monitoring of the impact of the changes on the overall business risk profile needs to be guarded; the control will need to be communicated regularly to the Chief of Staff and the Senior Management.

Requirements

- Strong operational and business risk knowledge with 5 years plus financial services background, ideally as an auditor/controller or a Risk Manager in a bank
- Bsc. Hons in Finance, Risk Management or Business Administration; FRM certification is advantageous
- Deep understanding of operational risk management in a Private Banking environment
- Excellent communication and interpersonal skills; capable of conveying complex concepts into simple terms to front and middle offices
- Fluency in English is a must; also in German would be a big plus
